Dear Friends,

Our children are our most precious resource. Every parent who is blessed with a healthy child remains ever thankful for their joy that their child brings.

As a people, however, we must remain committed to the value of every child. The Aleh Foundation in Israel helps fulfill that commitment. Aleh provides rehabilitative, day care, and residential facilities for seriously disabled children. With loving care and great professional acumen the staff of Aleh works day and night to ensure that each individual child reaches his/her potential. Aleh is certainly an institution worthy of our support. Please respond generously.

Sincerely,

Rabbi Shmuel Goldin
